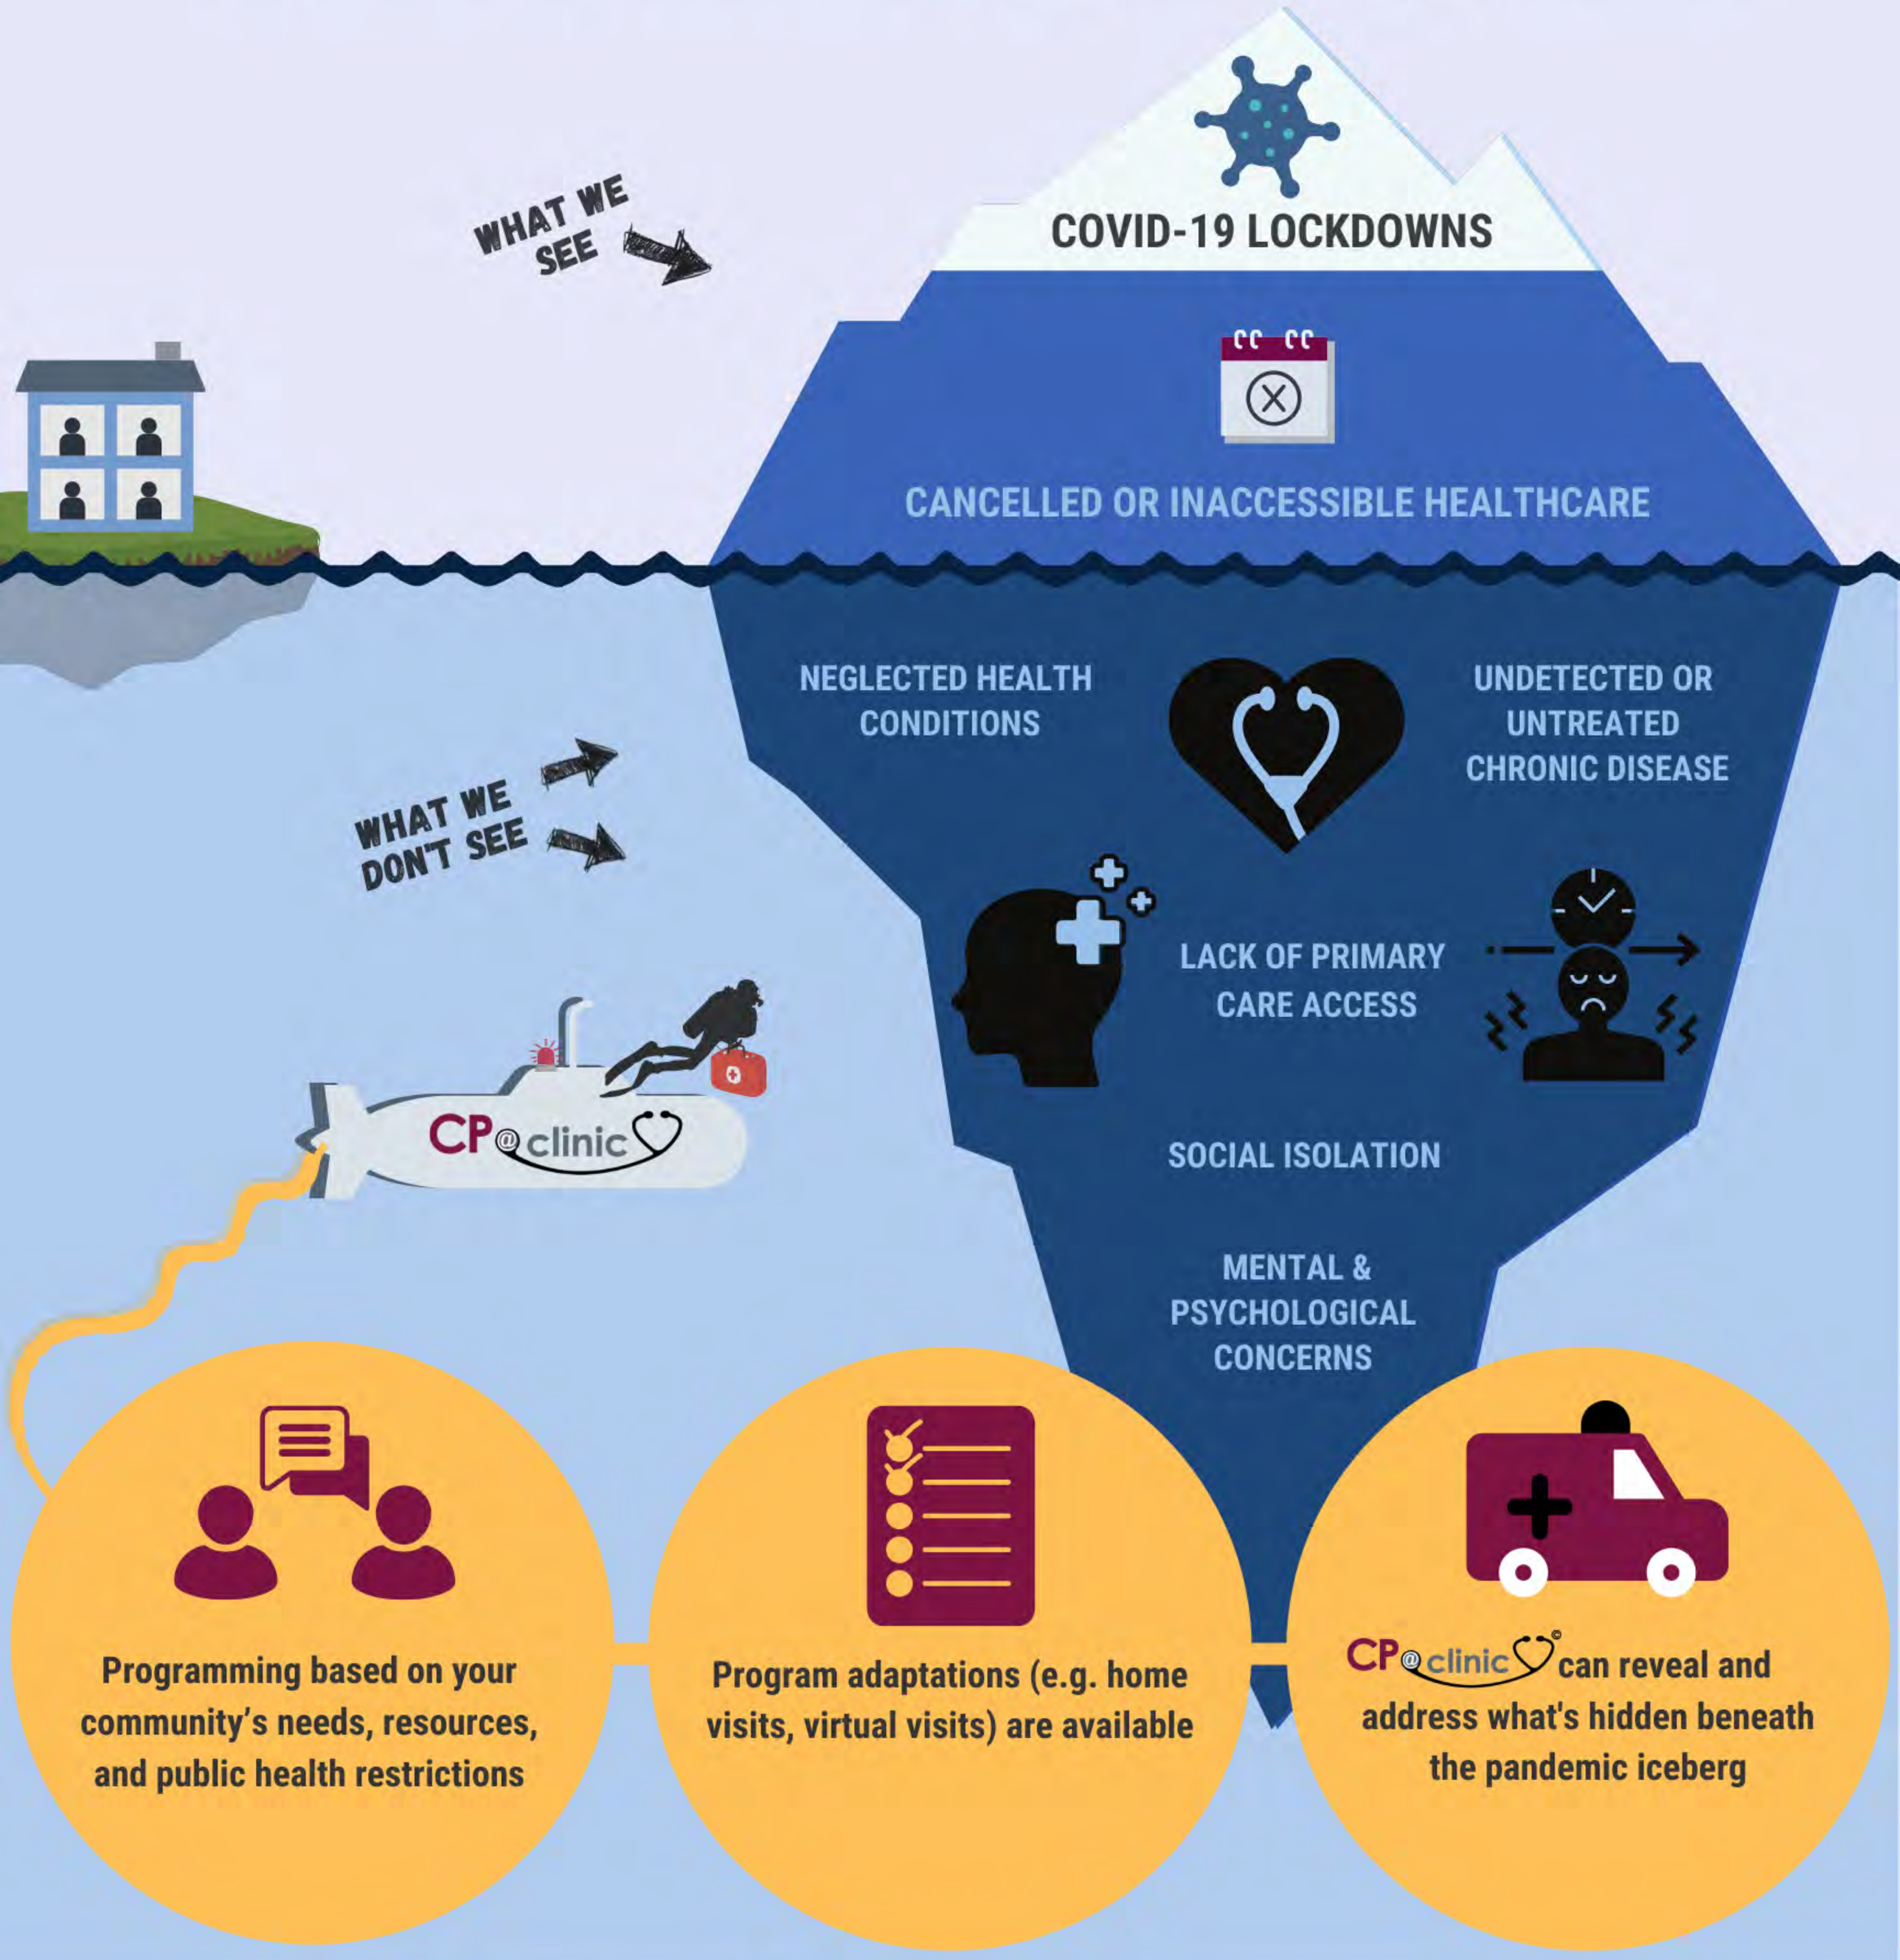
WHAT'S HIDDEN BENEATH THE TIP OF THE PANDEMIC ICEBERG?

As Ontario and other regions across Canada reopen after the third wave of COVID, we look forward to working with paramedic services to safely restart CP@clinic© and/or CP@home programming



Programming based on your community's needs, resources, and public health restrictions

Program adaptations (e.g. home visits, virtual visits) are available

CP@clinic can reveal and address what's hidden beneath the pandemic iceberg
