

A TSUNAMI OF NEGLECTED HEALTH CONDITIONS IS ON ITS WAY

As Ontario & other regions across Canada reopen,
we look forward to working with paramedic services to
safely restart CP@clinic and CP@home programming

CP@clinic

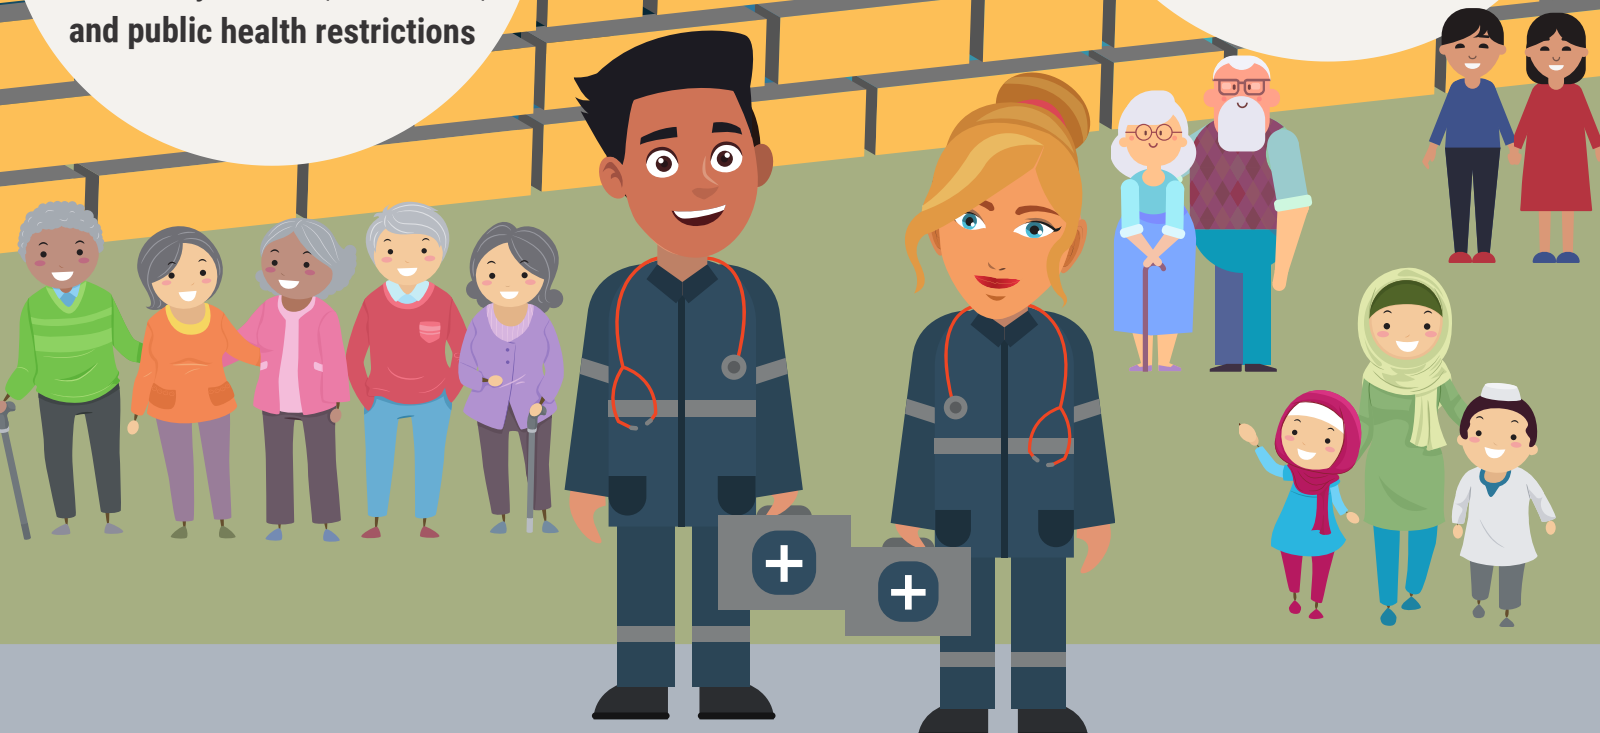

Programming based on your
community's needs, resources,
and public health restrictions

CP@clinic can address the
tsunami of unmet health needs
caused by the pandemic

Program adaptations
(e.g. home visits &/or virtual
visits) are available
